IKO ARMOURSHAKE DESIGNER SHINGLES

Before the first lullaby; before training wheels, summer camps and the big job promotion; ahead of summer vacations and high school graduations – there was one thing that mattered most: safeguarding your family members by providing a roof over their heads.

Many of life's most memorable moments unfold under the UNCOMPROMISING PROTECTION of your roof.

Since 1951, IKO has been there for North American families just like yours, quietly enduring the elements to protect families, homes and everything dear – while providing the luxury of not having to worry.

Now that it's time to replace your roof, don't take it for granted. Keeping your family comfortable and safe is just as important now as ever. And it's important to choose roofing products that not only look great, but also can go the distance. At IKO, four generations of family-owned-and-operated experience go into every product we make. The result? **Beauty you can see. Quality you can feel. And performance you can trust. Because at IKO, it's not just roofing. It's roofing elevated.**

BEAUTY YOU CAN SEE

Grace your home with the appearance of genuine wood shakes.

Did you know that your roof accounts for up to 40% of the visual surface area of your home's exterior? That's a huge canvas for you to express yourself on. Just as stone countertops and high-end finishes can transform your home inside, so can IKO Armourshake designer laminated shingles elevate its outside. Their extreme dimensional thickness, beautifully sculpted profile, extra large dragon's teeth and overall large exposure create a high-end designer appeal that will give your home a lasting look of luxury.

Natural wood shakes have a contoured profile that creates a basket-weave effect and provides visual texture. IKO Armourshake shingles are designed with a similar deep cut, contour and extra-large teeth, to emulate this time-honored and sought-after appearance. They are also the largest, thickest and heaviest ones we make. Deep cuts, rich color blends and a thick dimensional profile take high-definition to a whole new level few can imitate. In terms of curb appeal, IKO Armourshake is a stunning choice.

Your biggest challenge?

Choosing the right color from among the palette of spectacular color blends we offer.

Can't decide on a shingle color? IKO RoofViewer® to the rescue! Our exclusive interactive shingle selector software tool lets you mix'n'match our shingles based on home style, color of siding and other accessories. Or upload a photo of your actual home. Download at IKO.COM or get our free app at Google Play or iTunes. *See details on back cover.

QUALITY YOU CAN FEEL

Unlike some other shingles on the market, IKO Armourshake shingles are constructed of two fiberglass mats, laminated together for strength, durability and flexibility. Of all the shingles we produce, IKO Armourshake stands alone in terms of its dimensional thickness, weight and exposure. On your roof, these qualities combine to help create the coveted look of genuine wood shakes. In your hands, their heavy weight and flexibility will convince you of the difference quality makes.

Unique in terms of its design, dimensional thickness, weight and exposure.

INNER STRENGTH IS A CORE VALUE.

The strength of our shingles starts within thanks to resilient fiberglass mats that are coated top and bottom with weathering asphalt, then surfaced with colored granules.

BUILT-IN ALGAE-RESISTANCE.

We embed colorfast Algae Resistant granules into our shingles to help inhibit the growth of blue-green algae that can cause unattractive black stains, streaks and discoloration.

AN EXCEPTIONAL BONDING EXPERIENCE.

IKO's Fastlock™ sealant strips running across the back of the shingle help prevent wind-driven rain from getting underneath them. When activated by the sun's heat, they get extra-tacky and create a strong bond to help ensure maximum protection against wind uplift, blow-off and water infiltration.

UV-RESISTANT GRANULES.

The sun's ultraviolet rays also have the potential to cause discoloration. Granules embedded in the shingles' surface help prevent this from happening.

PERFORMANCE YOU CAN TRUST

You can rest easy when the roof you put over your family's head is one made of IKO Armourshake shingles because they offer effective protection against wind, water and even fire. We've designed them to be aesthetically pleasing while protecting your roof against the ravages of Mother Nature, like heavy winds and torrential rain. We've made them strong,

tough and durable to help you and yours weather life's storms with complete confidence in their performance and lasting pride in their charming beauty.

So, let it snow. Rain.
Or blow.

THE IKO ADVANTAGE

Limited Warranty ¹	Limited Lifetime
Iron Clad Protection ¹	15 Years
Limited Wind Warranty ¹	110 mph (177 km/h)
Limited High Wind Warranty Upgrade ¹²	130 mph (210 km/h)

²High Wind Application is required.

³All values shown are approximate.

⁴Products developed with reference to these Standards.

Color Featured: Weathered Stone

WEATHERED STONE

Here's how we improved on Mother Nature.

Some local building codes don't permit roofs of real cedar shakes because they're flammable. IKO Armourshake shingles carry a Class A Fire Resistance rating (ASTM E108/UL 790) so your home can have all the gorgeousness of genuine wood shakes without all the worry.

WEATHERED STONE

Timeless and elegant yet warmly welcoming.

PERFECT PAIRINGS: Stone, masonry, wood, brick, siding (especially white, beige, brown, grey or red).

Color Featured: Weathered Stone

Get the look of genuine cedar shakes.

Our spectacular color blends give you the freedom to choose the original reddish color of real wood shakes or the weathered, dusty grey appearance they naturally acquire over time. Either way, your new roof will be a thing of lasting beauty.

SHADOW BLACK

Dramatic, refined, modern minimalist or stately traditional.

PERFECT PAIRINGS: Stone, masonry, siding (especially white or grey).

WESTERN REDWOOD

Down-to-earth, genuine, casual.

PERFECT PAIRINGS: Stone, masonry, wood, brick, siding (especially beige, brown or green).

SHADOW BLACK

Color Featured: Western Redwood

WESTERN REDWOOD

To blend in or stand out? That is the question. If your home is nestled in a woodland setting, our Western Redwood color blend is a natural choice. For urban traditional or contemporary homes, your inner designer might appreciate the monochromatic, minimalist look of Shadow Black or Greystone.

Color Featured: Shadow Black

For a rooftop
that stands
above the rest.

With the natural look of real wood shakes, Armourshake stands out for its ability to defend your roof against the fierce elements of nature. Wood roofs can turn to grey in as little as five years as the sun strips them of their natural resins. By deflecting harsh sunlight and resisting algae, Armourshake shingles boast a good-as-new appearance years after installation.

Color Featured: Chalet Wood

Decision time? Do this first.

It's important to select a color blend for your roof the same way you'd select a paint color for a room in your home. Like a paint chip, an actual sample of our shingles will help you make the right choice when you see how the colors appear to change as light conditions do.

CHALET WOOD

Boosting your home's curb appeal might well pay future dividends.

When it's time to sell your home and move on, you could be very happy indeed about the wise investment you've made in choosing IKO Armourshake shingles. In the meantime, just enjoy your neighbors' admiring oohs and ahs.

GREYSTONE

Classically elegant, subtly refined and relaxed.

PERFECT PAIRINGS: Stone, masonry, wood, brick, siding (especially white, red or grey).

CHALET WOOD

Warm, welcoming and natural.

PERFECT PAIRINGS: Stone, masonry, wood, brick, siding (especially cream, beige or grey).

PRO4 INTEGRATED ROOFING ACCESSORIES

Shingles are your home's first line of defense, but they protect, perform and look their best installed with the recommended IKO PRO4 Integrated Roofing Accessories shown below.

DECK PROTECTION	SYNTHETIC UNDERLAYMENT	ROOF STARTERS	CAPPING SHINGLES
-----------------	------------------------	---------------	------------------

1. IKO GoldSeam™ Roof Sealing Tape

- 1a.** Apply where the fascia and eaves meet.
- 1b.** Apply over seams when sealing the deck using synthetic underlayment.

ArmourGard™ or GoldShield™ Ice & Water

- 1c.** Apply under shingled roofs to prevent water infiltration due to ice dams and wind-driven rain.

2. RoofGard-Cool Grey™

It's lighter and easier to handle, making it faster to install. The synthetic, nonbreathable material provides a superior slip-resistant surface. It's easy to install around vents, dormers, and other roof structures. And since it's grey instead of black, it absorbs less of the sun's radiant heat.

3. Leading Edge Design

- 3a.** Apply Leading Edge Plus™ or IKO Edge Seal® at eaves and rakes to help ensure wind resistance at that critical first course of shingles.
- 3b.** Armour Starter shingles are embedded with granules to match the colors of the Armourshake shingle. Apply as a starter strip along with IKO Leading Edge Plus or EdgeSeal® Starter.

4. IKO UltraHP® / IKO UltraHP® IR®

Our specially constructed ridge cap shingles are designed to provide a high-quality alternative to using cut-up roof shingles to protect this important area. The "HP" stands for "High Profile," which means that they're also designed to add dimension, depth and texture to your roofline and rakes.

To find out more about Armourshake Designer shingles or additional IKO products, please talk to an IKO sales representative or a professional roofing contractor, or contact IKO directly.
